Overview: This first session will see the completion of units 1-10 from the required text, Impact Listening 2. As we normally meet three times a week, we will use the textbook twice and supplementary materials once a week (usually on Tuesday). These supplementary materials will include authentic materials and various games and activities. The games and activities, in addition to focusing on listening comprehension, are designed to give you ideas that you may want to incorporate into your language learning classroom.

We will meet for a total of 30 periods (15 days) for listening in this first session.

Evaluation: Evaluation for this class is done by means of a 90-minute listening test given on Thursday October 19. General evaluation criteria can be found on pages 8 and 9 of your guidebook and your instructor will give you more specific criteria as the evaluation draws nearer.
